

❖ SAN CARLOS DE BARILOCHE ❖

CIVIC CENTER

Walking through the Civic Center, getting lost in the shops on Mitre street, visiting an outstanding cathedral... Anyone who has never been to Bariloche finds in these places an entrance to the secrets and wonders of the city. And anyone who has already been there, will always find something new to discover.

► CIVIC CENTER:

With its 75 years of life, it has never lost its unique attractiveness. Its stone buildings, its wooden doors and the Nahuel Huapi lake in the background are just a few of the reasons why the Civic Center is a not-to-miss stop for both tourists and locals.

► MITRE STREET:

Or "La Mitre", as it is usually called, was the first paved street in the city, and is home to most of the city's shops. Walking along Mitre Street from end to end is an unforgettable experience.

► THE CATHEDRAL:

With its Neo-Gothic style, its tall walls and a huge decorated dome, the Cathedral is astonishing for its majestic presence in an incredible setting.

CIRCUITO CHICO

One of Bariloche's most traditional tours. From the center of the city, on your own or booking a tour, kilometers of different scenes and breathtaking sights await you. Some of the most outstanding attractions are:

► MOUNT CAMPANARIO:

17 kilometers from downtown, it offers one of the best panoramic views of the city.

► COLONIA SUIZA:

Museums, restaurants, a vibrant fair on Sundays, and the opportunity to try "curanto", the traditional stone-cooking in a hole in the ground.

► LLAO LLAO MUNICIPAL PARK:

An excellent way to appreciate the surroundings of our city, with pure nature and scenery.
